- A. TRUE
- B. FALSE

**For \$35,000...**

**Q: Which of the following breeds are NOT a Draft breed?**

- A. Percheron
- B. Suffolk
- C. Morgan
- D. Clydesdale

**Q: Which of the following breeds are NOT Pony Types?**

- A. Mini
- B. Shetland
- C. Chincoteague
- D. Welsh

**For \$40,000...**

**Q: What are some things you would have in a first aid kit for your horse?**

- A. \_\_\_\_\_
- B. \_\_\_\_\_
- C. \_\_\_\_\_
- D. \_\_\_\_\_

**Q: What is the natural slow gait of the Tennessee Walking horse called?**

- A. running walk
- B. extended trot
- C. lateral gait
- D. pounding

**For \$45,000...**

**Q: Another name for Strongylus Vulgaris (Strongyles) is**

- A. Roundworms
- B. Threadworms
- C. Pinworms
- D. Bloodworms

**Q: List the four stages of a parasite's life.**

- A. \_\_\_\_\_
- B. \_\_\_\_\_
- C. \_\_\_\_\_
- D. \_\_\_\_\_

**For \$50,000...**

**Q: Which of the following animals is NOT a ruminant?**

- A. Horse
- B. Sheep
- C. Goat
- D. Giraffe

**Bonus Question:** What is the definition of ruminant?

**Answer:** \_\_\_\_\_

**Q: Which of the following is NOT a monogastric mammal?**

- A. human
- B. pig
- C. dog
- D. goat

**Bonus Question:** What is the definition of monogastric?

**Answer:** \_\_\_\_\_

**For \$55,000...**

**Q: Name the parts of the hoof**

- A.
- B.
- C.
- D.

**Q: What is this conformation fault called?**

- A. Sickie hocked
- B. Toed out
- C. Calf knee
- D. Camped out

**For \$60,000**

**Q: The term TDN stands for**

- A. Thoroughbred Daily News
- B. Total Digestible Nutrients
- C. Total Discarded Nutrients
- D. Totally Disgusting Nose hairs

**Q: Navicular disease is an inflammation of the:**

- A. Large colon
- B. Small intestine
- C. Esophagus
- D. Navicular bone and bursa

**For \$65,000**

**Q: Adult male horses have 40 teeth and adult female horses have 36 teeth.**

- A. TRUE
- B. FALSE

**Q: At what age do the permanent laterals (teeth) erupt?**

- A. 6 yrs
- B. 3 1/2 - 4 yrs
- C. 7 yrs
- D. 15 yrs

**For \$70,000**

**Q: In a horse, monocular vision**

- A. means the horse has only one useable eye
- B. gives the horse the ability to see separate objects with each eye at the same time
- C. is another name for "near-sighted"
- D. is another name for eye surgery

**Bonus Question:** What does "mono" mean?

**Answer:** \_\_\_\_\_

- A. is another name for "far-sighted".
- B. means it needs glasses or contacts to see correctly.
- C. is when a horse looks at one object with both eyes.
- D. means the horse is blind.

**Bonus Question:** What does "bi" mean?

**Answer:** \_\_\_\_\_

**For \$75,000**

**Q: What is this conformation fault called?**

- A. Bow legged
- B. Pigeon Toed
- C. Knock kneed
- D. Cow hocked

**Q: What is this conformation fault called?**

- A. Pigeon toed
- B. Toed out
- C. Bow legged
- D. Camped out

**For \$100,000**

**Q: Genes are the "brains" of the cell.**

- A. TRUE
- B. FALSE

**Q: Oxygen can be carried into the body's cells without iron in the blood**

- A. TRUE
- B. FALSE

**For \$115,000**

**Q: What are the number of chromosome pairs for a horse?**

- A. 6
- B. 12
- C. 32
- D. 30

**Q: How many pairs of chromosomes are there in a horse that do not match?**

- A. 6
- B. 5
- C. 12
- D. 1

**Bonus Question:** Which don't match?

**Answer:** \_\_\_\_\_

**For \$120,000**

**Q: The mare is termed "seasonally polyestrous"**

- A. because she cycles continuously throughout the breeding season without conceiving.
- B. because she cycles only in the summer time

- A. a disease of the frog of the horse's foot
- B. caused by unsanitary conditions and bacteria
- C. usually black and very stinky
- D. all of the above

**Bonus Question:** How can thrush be prevented?

**Answer:** \_\_\_\_\_

**For \$125,000**

**Q: Another name for laminitis is:**

- A. Strangles
- B. Colic
- C. Founder
- D. Heaves

**Q: What are some causes of laminitis?**

- A. Over eating of grain or lush pasture
- B. Large amounts of cold water while horse is hot
- C. Toxemias following pneumonia
- D. All of the above

**For \$130,000**

**Q: It is impossible to know a horse's complete genotype.**

- A. TRUE
- B. FALSE

**Q: The type of cell division in sperm cells and egg cell is called mitosis.**

- A. TRUE
- B. FALSE

**For \$150,000**

**Q: The rhythmic characteristic movement of a horse's feet and legs in motion are called**

- A. pace
- B. running walk
- C. gaits
- D. stride

**Q: What is the fast, three beat gait called?**

- A. Canter
- B. Running Walk
- C. Pace
- D. Gallop

**For \$175,000**

**Q: Your horse should be given Tetanus Toxoid annually**

- A. TRUE
- B. FALSE

**Q: Minerals are organic compounds**

- A. TRUE
- B. FALSE

**For \$200,000**

**Q: What are the three main types of feed?**

- A. \_\_\_\_\_
- B. \_\_\_\_\_
- C. \_\_\_\_\_

**Q: Water is a necessary nutrient.**

- A. All the time
- B. Only in the summer
- C. Only in the winter
- D. Never

**For \$300,000**

**Q: What are the long threadlike structures made of complex protein?**

- A. tail hair
- B. muscle tissue
- C. veins
- D. chromosomes

**Q: Cellulose is a complex**

- A. carbohydrate
- B. protein
- C. antibiotic
- D. mineral

**For \$500,000**

**Q: What is the daily nutrient requirement of a 1,000 pound mature horse horse doing medium work?**

- A. 11-12 pounds of daily feed
- B. 15-16 pounds of daily feed
- C. 19-20 pounds of daily feed
- D. 28-30 pounds of daily feed

**Q: What is the average nutrient content of alfalfa hay?**

- A. 4.6% digestible protein
- B. 0.7% digestible protein
- C. 12.4% digestible protein
- D. 7.6% digestible protein

**For \$750,000**

**Q: What type of shot is given into the muscle?**

- A. Intramuscular (IM)
- B. subcutaneous
- C. intravenous (IV)
- D. intradermal

**Q: When a horse is dehydrated, what is the fastest way to get fluid into the system?**

- A. Give him warm water, mixed with salt
- B. Soak his feet in water
- C. Put a tube down his throat and give him water through the tube
- D. Give him an Intravenous shot (IV)

**For \$1,000,000**

**Q: What is the genotype of the offspring from a dominant black stallion (BB) and a recessive red mare (bb)?**

- A. Dominant Recessive (Bb)
- B. Dominant (BB)
- C. Recessive (bb)
- D. Recessive Dominant (bB)

**Q: What color would the foal be if a red (chestnut) stallion were bred to a red (chestnut) mare?**

- A. White
- B. Black
- C. Bay
- D. Red

**Bonus Question:** What gene would the egg and sperm carry?

**Answer:** \_\_\_\_\_

**Bonus Points- Double your money for \$2,000,000!**

Fill in the daily nutrient requirements for a 1,000 pound mature horse doing light work

Daily Feed Pounds	Digestible protein pounds	Total digestible nutrients pounds	Calcium grams	Phosphorus grams	Vitamin A International units.
